

SHIVAM CHAUDHARY

ASPIRING SOFTWAREENGINEER&WEBDEVELOPER

Greater Noida, Uttar Pradesh | +91 9696085890 | im.chaudharyshiva2919@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

2nd-year Computer Science Engineering student at NIET (CGPA 9.12) with hands-on experience building responsive web applications using HTML5, CSS3, JavaScript (ES6+), React.js, and Tailwind CSS. Solved 50+ problems on LeetCode in Java and JavaScript covering arrays, hashing, two pointers, and linked lists. Seeking a web development internship to contribute to real, production-level work.

EDUCATION

Noida Institute of Engineering and Technology (NIET)

Bachelor of Technology (B.Tech)–Computer Science Engineering (Current Year: 2nd Year)

Greater Noida, UP | 2025 – Present

CGPA: 9.12 (First Year)

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), Python, HTML5, CSS3

Frontend Development: React.js, React Router, Context API, Tailwind CSS, REST API Integration

Developer Tools: Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Responsive Design

TECHNICAL PROJECTS

Noisy Headphones – E-Commerce Platform *React.js, Vite, Tailwind CSS, React Router*

[Live Demo](#) | [GitHub](#)

- Built a full e-commerce UI with product listings, individual product detail pages, and size/color variant selection
- Implemented a multi-step checkout flow with client-side validation and UPI/Card/COD payment options
- Used `useNavigate` and `useLocation` to pass state between pages across the app

Interactive Weather Application *JavaScript, HTML5, CSS3, OpenWeather API*

[Live Demo](#) | [GitHub](#)

- Built dynamic video backgrounds that change based on live weather conditions
- Added humidity, wind, and feels-like cards with data-driven dynamic backgrounds
- Used `Promise.all()` to fetch multiple API endpoints in parallel, reducing load time

Velora Sneakers – Product Landing Page *HTML5, CSS3, JavaScript, Webpack*

[Live Demo](#) | [GitHub](#)

- Developed a responsive landing page with an interactive 360° drag-to-rotate shoe viewer
- Built featured product sections, size selection, and multiple product-view states
- Ensured consistent, responsive layouts across desktop and mobile using CSS Flexbox/Grid
